

Stow-on-the Wold and the Swells Neighbourhood Plan: Summary of Representations.

309 representations were submitted as part of the Regulation 16 consultation, and were shared with the Independent Examiner to inform his review of the Plan.

These representations were published on the Cotswold District Council, in three volumes to aid publication. For administrative purposes, these cover: representations made by email or letter; longer representations made by attachment, usually by corporate entities - statutory sector organisations or developer interest, and; representations made using an on line form.

Representations covered a wide range of issues, technical concerns and viewpoints. By topic, representations focused on the proposed site allocation, traffic concerns and parking, but picked up on a wide range of other concerns. The examiner's report should be read to understand how these representations have informed his review.

See below for the list of representations made.
